Overall Length:

6.250 inches

Overall Height:

1.880 inches

Overall Width:

5.050 inches

End Application:

Mission knit, ch-146

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Variation Frequency Rating In Decibels:

10.0

Signal Voltage Rating Per Channel:

27.500 volts input

Special Features:

Two channels; lamp will constantly flash till unit is reset; 4 mach screw mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
