Special Features:

8a firmwear implemented multimode hf modem designed to provide reliable digital data communications over short or long haul hf channels, line-of-sight (los) uhf channels and wireline service. It is capable of providing simultaneous operation (simop) of two modes except for the mil-std-188-110 single-tone mode of operation. It provides a compact, single package, integrated solution to current and future hf data transmission requirements, allowing increased capability while decreasing the size of the modem

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
