Overall Length:

0.515 inches

Overall Height:

0.125 inches

Overall Width:

0.390 inches

Operating Temperature Range:

-54.0/+100.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Attenuation In Decibels:

8.0

Special Features:

Flatpack type i.C.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
