End	Δn	nlic	atio	'n.
⊏iiu	Ab	PIIL	auc	".

Spacelift telemetry, western insturmentation range

## **Special Features:**

Pillar point system receives data from mx missiles, demodulates and re modulates (narrow band) signal via microwave link to vafb: reliabity/readibility testing on transmitted signal

Shelf Life:

N/a

**Unit Of Measure:** 

--

Demilitarization:

No

Fiig:

A23800
