**Channel Type And Quantity:**

32 receiving

**Special Features:**

True 16 bit precision; voltage and input protection; signal-to-noise ratio 98 db; peak and total harmonic distortion -98 db; vxi conforming; dc to dc converter powered by 5 v; self-test capability; compatible with analogic dbs series of data aquisition system modules

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T187-f
