Overall Length:

6.620 inches

Overall Height:

2.520 inches

Overall Width:

6.330 inches

End Application:

5820-01-362-0605

Voltage In Volts And Current Type:

120.000 ac

General Description:

Mthe datalink pre-processor is a communications datalink converter and processor that accepts various synchronous serial communications formats and converts the data into packets of serial asynchronous rs-232 data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
