Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Emission Type:

F9 and p9

Operating Frequency:

10.000 megahertz

Special Features:

Two video outputs one for post-detection recording the other for real time processing of the received telemetry signal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-c
