End Application:

Rcdc

Special Features:

19 in rack mount; rs232 ports- db25 or rj45 (rs422 optional); network ethernet dix & 802.3; protocols- tcp/ip, telnet, rlogin, raw, reverse telnet, ppp, slip, cslip, lpd, rcp, dns, and win; managment- snmp, mib ii, telnet, console port, and character & chase enterprise variables; speed range- serial 50bps to 115.2 kbps; modem support- full bi-directional; serial port signals- cts, rts, dsr, dtr, dcd, rx, tx; network connector- aui, bnc, and rj45 (autosense)

Functional Description:

16 port communication server

General Description:

Internal power supply 50/60 hz, 90-250vac (auto-sensing)/w provision for 48vdc telecom usage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
