Overall Length:

13.800 inches

Overall Height:

3.500 inches

Overall Width:

4.800 inches

End Application:

E-3 mission simulator

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Ethernet server switch

Special Features:

This unit has 12 ports supported; 1 port may be used to daisy chain/w other units (to 256 ports): also this unit mat be upgraded to 16 ports

Functional Description:

Provides interface and switching of any sun, mac, or pc compatible cpu, with any multi-sync monitor

Type/model Designation:

Kv5112fa

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
