Overall Length:

5.960 inches

Overall Height:

5.580 inches

Overall Width:

1.420 inches

Special Features:

Input voltage, -22 to -56 v dc

Functional Description:

Adaptive, split-type echo cancellor intended for use near the end points of 4-wire transmission facilities w/ appreciable propagation delay

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T187-f
