**Ac Voltage Rating:**

240.0 volts

**Switch:**

Included

**Special Features:**

Programmable; 240 vac; multiple modulation phaco (mmp) offers fast flexible programming for diff phases of nucleus removal, incl 3 sets of programming opts for ea parameter, with unique program for ea phase; preprogrammed foot pedal gives immediate access to 3 mmp levels, increasing efficiency/control

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T122-c
