Ac Voltage Rating:

240.0 volts

Switch:

Included

Special Features:

Programmable; 240 vac; multiple modulation phaco (mmp) offers fast flexible programming for diff phases of nucleus removal, incl 3 sets of programming opts for ea parameter, with unique program for ea phase; preprogrammed foot pedal gives immediate access to 3 mmp levels, increasing efficiency/control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-c
