Overall Length:

7.870 inches

Overall Height:

1.180 inches

Overall Width:

4.720 inches

Operating Temperature Range:

+0.0/+55.0 degrees celsius

Average Life Rating:

100000.0

Average Life Measurement:

Hours

Basic Shape Style:

Rectangular or square

Installation Design:

Transportable and portable

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

100.0 single voltage and 240.0 single voltage

Special Features:

IEEE 802.3 compliant; 10base-t; 10base-2; 10base-5; rj-45, female db15 and female bnc connectors; 10mb per sec. Data rate; 15 vdc output at 2.70 amps; 100/240vac input at 1.0 amp; manufacturer's name: non-managed base10-base7 hub; 5-90 percent non-condensing humidity range; storage temp: -25 to 70 degrees c

Functional Description:

Super compact work group hub for local networks (lan)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
