Product Name:

Source module

Special Features:

Uncorrelated band-limited and translated random noise stimulus; a variable burst random stimulus; burst sine (single frequency) and impulse outputs; a reference signal for system verifications of input modules; programmable phase control at 0, 90, 180, and 270 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
