Overall Length:

22.000 inches

Overall Height:

12.500 inches

Overall Width:

19.000 inches

End Application:

Record device, materialamt der luftwaffe

Special Features:

Data collection station features time based and nyquist digitization, 32m pluse buffer memory, 128mb nyquist sample buffer, 50ns time based resolution, post collection data windowing, collected data d/a playback, ampex dcrsi tape data interface, dec vax/bi drb32-e data interface, integral phase lock oscillator, separate rs-232 control interface, complete remote control, power - 90-132, 180-264 vac auto selectable, 47-63 hz, 400 watts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
