End Application:

Switchboard, pwr dist. 379.Msb.100

Special Features:

Spm-a standard voltage matching (emc) assembly synchronizer; eu compliant, provides speed, phase and voltage matching; power source: ph. 1; power supply not included; signal sensed: frequency, speed and voltage; outputs: low and high impedance and for epg without load sensor; gray chassis - emc directive 89/336/ecc. Complies with en50081-2 and en50082-2; pcb 5501-363; governor type: spm; power supply voltage: 115/230; power supply frequency: 60 hz; voltage matching: 1 percent; phase angle: 10 deg; output: multiple; approval: ul; dynamics: adjustable

Shelf Life:

N/a

Unit Of Measure:
