End Application:

Sir 1000 data recorder

Inclosure Type:

Encased

Power Source:

External

Maximumlength:

25.0 millimeters

Maximumwidth:

210.0 millimeters

Maximumheight:

70.0 millimeters

Indication Method:

Receiving meter movement

Product Name:

Remote control unit

Special Features:

16 channels, tape address input range warning indicators; rs-232c inte rface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
