End Application:

Signatire resistor module assembly (11a4w2a1)

Product Name:

Magnetics interface cca

Functional Description:

Output pulses from the high voltage switching circuit in the power cca are connected to the magnetics interface cca. They are then coupled to a hv-bridge which passes through a current limiting inductor I1 and into a hv transformer in the magnetics assembly. The output is fullwave rectified and sent to the ltr as the high voltage (hv) output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23900
