Overall Length:

48.000 inches

Overall Height:

2.000 inches

Overall Width:

2.000 inches

End Application:

Mh-60s specification gse allow

Accessory Components And Quantity:

6 pin cable wire 1; connectors 2

Criticality Code Justification:

Agav

Product Name:

Inavy)cable assembly, w453, egi loading

Special Features:

To connect the kyk-13 to the egi navigation set installed on the sh-60r and ch-60s aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
