Overall Length:

10.200 inches

Overall Height:

1.730 inches

Overall Width:

8.440 inches

End Application:

Aircraft, f-16 a/b

Wattage Rating:

6.000 watts

Voltage In Volts And Current Type:

12.0 ac

Product Name:

Digital quad video processor

Special Features:

High quality quad display; real-time quad video; low cost; four camera inputs w/four looping outputs; color/monochrome; five alarm input, one alarm output; quad monitor output that displays continuous four camera image

Color:

Gray

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
