Overall Length:

4.120 inches

Overall Height:

1.000 inches

Overall Width:

3.750 inches

Operating Temperature Range:

+0.0/+40.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Special Features:

Two port, 10 ac power supply, u.S. Power cord

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
