Operating Temperature Range:

+0.0/+50.0 degrees celsius

Maximum Voltage Rating In Volts:

24.0 dc

Inclosure Type:

Encased

Terminal Location:

Back

Power Source:

External

Terminal Type And Quantity:

11 pin

Maximumlength:

4.000 inches

Maximumwidth:

1.900 inches

Special Features:

Equipped with two indicator lights: power on and output status; 6va power consumption; 11 pin plug-in enclosure; automatic or manual (remote) selectable reset mode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
