Product Name:

Combat operations center, set iv

Special Features:

The combat operations center (coc) is a set of equipment designed to provide command and control (c2) operational facilities for the commander and staff of marine air ground task force (magtf). The coc is a component of the unit operations center (uoc). The coc equipment sets provide centralized operations to collect, process, and disseminate tactical data for the commander and staff of ce's, gce's, csse's, and ace's.
