Overall Length:

11.500 inches

Overall Height:

1.800 inches

Overall Width:

8.300 inches

Operating Temperature Range:

+0.0/+40.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

100.0 single voltage and 240.0 single voltage

Special Features:

12 port 10/100tx managed switch plus 1 expansion bay; european power cord

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
