Overall Height:

1.750 inches

Overall Width:

19.000 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Rack

Circuit Construction Type:

Solid state

Impedance Rating Per Channel:

50.000 ohms input channel

Special Features:

Tape to if converter; 4.3 mhz tape input, 160 mhz if output; non-frequency inversion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
