End Application:

Bits-jnn version

Unpackaged Unit Width:

36.500 inches

Unpackaged Unit Height:

19.840 inches

Component Quantity:

10

Supply Items And Quantities:

5895-01-494-5188 computer digital data transfer 1; 5810-01-487-6582 kiv 7hsb network 1; 5895-01-500-4714 switch electronic 1

Nonsupply Items And Quantities:

61715 100l-h32 computer digital 1; 0wa58 e-cx-tbt-04 converter digital to digital 1; 0gx96 2821xml interface unit automatic data processing 1; 0mgy1 cars-51 modem communications 1; 04gk9 netrm power strip electrical outlet 1; 04gk9 sua750rm1u power supply 1; 61715 rnvs-1u15aa terminal data processing 1

Joint Electronics Type Designation System Item Type Number:

Oa-9511a/tyq

Functional Description:

The switching group, when used with the an/tyq-122 teleconference system and connected to the joint network node (jnn), ensures secured, reliable transfer of real time audio and video data.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
