End Application:

OI-711/us (55910) video interface group

Package Model Number:

3750-24ts

Features Provided:

Electrostatic sensitive

Product Name:

Inavy electronic gate

Special Features:

Port speed: 10/100/1000; number of ports, 24; software image, standard multilayer image (smi); used for, networks requiring low density access with switch stacking capability, layer 2 plus features, and one or more fiber uplinks

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
