Overall Height:

5.250 inches

Overall Width:

19.000 inches

Overall Diameter:

14.500 inches

Multiplexing Method:

Time division

Special Features:

24 4 wire channels; power 115 vacalt 48 or 24 vdc; suitable for all t1 uses, flat response, phase and delay coherent, modular chassis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T187-f
