End Application:

An/fsq-14 (v)

Joint Electronics Type Designation System Item Name:

An/fsq-215

Product Name:

Lado assembly

Special Features:

Operating voltage of 120v at 50-60hz

Functional Description:

Monitors, commands and controls the gps satellite constellation for several mission scenarios. Primary function include planning and command and control functions. Includes support infrastructure services to provide logging, data recording, data access, and data maintenance and control functions.

Supplementary Features:

The system will utilize a single system time source. Must have (gfe) (ups) electrical power

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
