Overall Length:

5.125 inches

Overall Height:

1.187 inches

Overall Width:

3.562 inches

Operating Temperature Range:

-20.0/+55.0 degrees celsius

Basic Shape Style:

Rectangular or square

Maximum Operating Altitude Rating:

50000.0 feet

Circuit Construction Type:

Solid state

External Dc Operating Voltage In Volts:

28.0 single voltage

Special Features:

Operating current 120.0 milliamps; contact switching rate 1.0 amp @ 30vdc max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
