**Ac Voltage Rating:**

Between 110.0 volts and 240.0 volts

**Special Features:**

4308t with adaptive rf management, provides 8 auto-sensing 10/100 interfaces with power over ethernet and one 1000 baset uplink, supports up to 16 operates directly connected to the access points or remotely connected through a layer-2 or layer-3 network

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T142-p
