Overall Length:

14.500 inches

Overall Height:

1.750 inches

End Application:

5895-01-495-9105 - an/usc-6 (v)1 - lightweight multiband satellite terminal (lmst)

Criticality Code Justification:

Feat

Voltage In Volts And Current Type:

120.0 ac

Product Name:

Gps receiver with saasm module

Special Features:

Contains parts and assemblies susceptible to damage by electrostatic discharge (esd)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
