Overall Length:

1.320 inches

Overall Height:

0.390 inches

Overall Width:

0.520 inches

Operating Temperature Range:

-55.0/+100.0 degrees celsius

Average Life Measurement:

Not rated

Circuit Construction Type:

Solid state

Frequency Per Channel:

7.0 gigahertz 1st operating channel err-100 and 26.5 gigahertz 1st operating channel err-100

Special Features:

Sma connectors at lo, rf and if ports; connectors are not removeable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
