Overall Length:

6.450 inches

Overall Width:

4.380 inches

End Application:

Canadian government c3 missile system

Accessory Components And Quantity:

Cisco 3230 mobile access router (mar) 1; intelligent power management circuit 1; external power reset switch 1; ground lug 1; front panel status leds 20

Wattage Rating:

150.000 watts

Special Features:

Designed to meet or exceed mil-std-810f (temperature, immersion, shock, vibration, humidity, crash safety); emi/emc - mil-std-461e for radiated and conducted emissions and susceptibility

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
