End Application:

Jnn, inc 2, transit case assembly

Special Features:

Operating power requirements: 5000w at 120vac plus or minus 10 percent, 47-63hz.

Functional Description:

The jgn is a transit case assemblage. The joint gateway node (jgn) provides highly specialized capabilities to connect to joint, strategic, modular, and allied networks at large command posts. In addition to these gateway functions jgn wide area network (wan) ports are available for user provided encrypted coalition networks to tranverse the win-t wan.
