Overall Length:

3.750 inches

Overall Height:

1.000 inches

Overall Width:

2.650 inches

Dc Voltage Rating:

Between 10.0 volts and 30.0 volts

Input Impedance Rating:

1.0 kilohms

Special Features:

Combines up to 4 nmea 0183 instruments into a common input; 4800 baud input data rate; 4800-38400 selectable baud output; 4800 baud alker rate; usb and rs-422 output formats tri-color led indicator; 2-14 v input drive voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T187-f
