Overall Length:

17.320 inches

Overall Height:

1.700 inches

Overall Width:

10.200 inches

Operating Temperature Range:

+0.0/+40.0 degrees celsius

Average Life Rating:

58300.0

Average Life Measurement:

Hours

Basic Shape Style:

Rectangular or square

Maximum Operating Altitude Rating:

3000.0 meters

Inclosure Type:

Encased

Installation Design:

Free-standing and rack

Circuit Construction Type:

Solid state

Product Name:

Prosafe 24-port gigabit I2 managed switch model gsm7224

Special Features:

Front panel contains leds, rj-45 jacks, sfp module bays, and rs-232 console port; rear panel has standard ac power receptacle for supplied power cord

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
