End Application:

Wsd: cvn nuclear reactor boundary area

Product Name:

Signal transmitter (field-selectable range)

Special Features:

Input range porm 10v; 1v-10v span, output 4-20ma dc, supply voltage: 13-28vdc, connection: m3 screw terminals (nickel-plated steel) die

cast aluminium housing material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
