End Application:

Ou-180 (v) /g

Joint Electronics Type Designation System Item Name:

Converter group, frequency electronic

Joint Electronics Type Designation System Item Type Number:

Ou-180 (v) 5/g

Special Features:

Operating power requirements: 120/128vac, 50/60hz, single phase 500w max

Functional Description:

The electronic frequency converter group is intended for use in a defense satellite communications system (dscs) satellite communication terminal (sct) and houses one rack assembly for both the up and down converters, 10 channel 5 mhz distribution amplifier and up and down converter switch assemblies, respectively. The if switching capability is now in the racks allowing the upconverter and downconverter rack; the patching capability to support the an/gsc-52 (v) 6.

Relationship To Similar Equipment:

Similar to but not functionally: ou-180 (v) 2/g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
