AeroBase Group

View Online at https://aerobasegroup.com/nsn/5895-01-579-7607

Basic Shape Style:

Rectangular or square

Installation Design:

Top of cabinet/counter

Circuit Construction Type:

Solid state

Special Features:

5-port fast ethernet switch; ruggedized; operates at 10/100 base-t; irig timing; built-in gps receiver; supports ieee-1588; provides interconnection between data acquisition systems, control systems, recorders, gateways and the icms network management interface; supports single network management protocol; 5000 mbps bnadwidth aggregation; 1.79 million packets per second non-blocking switching; supports 4000 multicast addresses; compatible with ttc network acquisition and networked recording systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
