End Application:

5895-01-551-3833, network management system

Product Name:

Linkway s2 broadband vsat system

Special Features:

Terminal includes an integrated dvb-s2 receiver/decoder which can receive a broadband ip data stream from a dvb-s2 hub, providing efficient broadband star connectivity to a central data source while simultaneously providing full-mesh capability; integrated satellite router for ip networking with advanced features such as ip qos, ip header compression, ip multicast, and tcp acceleration; mobile networking land and sea; has gui web-based pc clients allows secure network control

Supplementary Features:

Integrated frame relay switch for connecting peripheral frame relay access devices supporting voice, packet data, serial data, or legacy protocols; can operate on up to 64 non-contiguous satellite carriers across an 800 mhz frequency range allowing access to any available bandwidth on any transponder on the satellite; choice of carrier rate from 312 ksps to msps;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T187-d
