Special Features:

Enhanced maritime system without gps. The kit is a 20m immersible software defined, tactical hearing protection/hearing enhancement headset system. The modularity of the system enables the operator to use a variety of headset configurations based on the operational profile. The control box headset lead includes a quick disconnect connector that allows the attachment of various headset configurations (see optional covert and 20m immersible low noise headsets below). The control box includes 3 radio/intercom lead (primary, secondary, auxiliary)
