

View Online at <https://aerobasegroup.com/nsn/5895-01-596-9397>

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

47.0 single voltage and 63.0 single voltage

External Ac Operating Voltage In Volts:

20.0 single voltage and 125.0 single voltage

Special Features:

16 outputs per module; 2 commons (isolated) per module; ssr array (triac)output type; 140 vac peak voltage; 1.1a/point current; 50ma load; 8ms off to on/on to off response; removable terminal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
