NSN 5895-01-596-9397

Interference Generator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5895-01-596-9397

Basic Shape Style:	
Rectangular or square	
nclosure Type:	
Encased	
Circuit Construction Type:	
Solid state	
Operating Ac Frequency In Hertz:	
47.0 single voltage and 63.0 single voltage	
External Ac Operating Voltage In Volts:	
20.0 single voltage and 125.0 single voltage	
Special Features:	
16 outputs per module; 2 commons (isolated) per module; ssr array (triac)output type; 140 vac peak voltage; 1.1a/point current; 50ma	
oad; 8ms off to on/on to off response; removable terminal	
Shelf Life:	
N/a	
Unit Of Measure:	
-	
Demilitarization:	
No	
Filg:	
A32200
