Overall Length:

1.250 inches

Overall Width:

0.750 inches

Product Name:

Resistive power divider 0 deg

Special Features:

Also available with bnc, tnc, f and n connectors; output is two-way; port configuration: output= 1, 3; input= 2; frequency range (ghz)is dc 4; insertion loss (db max) is 6.5; amplitude balance (db max) is 0.4; phase balance (deg max)is 3; vswr maximum is 1.40: 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512n0
