End Application:

An/msw-24 (v) 1

Product Name:

Data analysis central

Special Features:

Prophet analytical cell is a multi-functional control system that will direct and manage the sensor platforms, prophet analytical cell, will be a vehicle-transported system that provides analysts with automation processing and integrated communications capability. All sensors will receive and transmit applicable technical data to prophet analytical cell.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
