Average Life Measurement:

Not rated

End Application:

5865-01-567-8646

Basic Shape Style:

Irregular

Inclosure Type:

Open

Installation Design:

Module

Emission Type:

Ao

Circuit Construction Type:

Electromechanical

Special Features:

: output frequency range 700mhz to 2700mhz; single supply 4.75v-5.5v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
