Overall Length:

20.470 inches

Overall Height:

7.700 inches

Overall Width:

14.020 inches

Environmental Protection:

General purpose

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mobile

Circuit Construction Type:

Solid state

Product Name:

Analog and digital radio test platform

Special Features:

For additional details go to the website www.Aeroflex.Com

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
