## **Special Features:**

Shelf Life:

**Fiig:** A23800

Sdn-heavy, mobile sie strategic entry point (mssep) is a mobile transit cased communications hub/gateway with regional data center capability. Consists of transport segment and 4 secure classification enclave segments, employing kg-255, kg-250x, kg-175, and kiv-7m network encryptors. Mssep is fielded with 4-meter class quad-band antenna Imaa3.9m, 5895-01-578-0961 or maqa. Without antenna terminals, mssep uses 84 transit cases.
