| Overall Length:                           |
|---|
| 516.0 inches                              |
| Overall Height:                           |
| 180.0 inches                              |
| Overall Width:                            |
| 654.0 inches                              |
| End Application:                          |
| An/asq-24 (v) 4                           |
| Current Rating:                           |
| 164.7 amperes                             |
| Voltage In Volts And Current Type:        |
| 28.0 dc                                   |
| Product Name:                             |
| Airborne reconnaissance low-multifunction |
| Shelf Life:                               |
| N/a                                       |
| Unit Of Measure:                          |
|   |
|   |
| Demilitarization:                         |
| Demilitarization: Yes - demil/mli         |
|   |
| Yes - demil/mli                           |
